

**PRIZE FUND MUST BE COLLECTED FOR EACH DIVISION & \$10.00 Sanction Fee -**

**MEMBERSHIP OR PERMIT IS MANDATORY TO COMPETE AT A JACKPOT!**

**Date of Jackpot:** \_\_\_\_\_ **Location:** \_\_\_\_\_ **Name of Host:** \_\_\_\_\_

STEP 1 – Determine The Payout Money	Open Jackpot	Youth Jackpot	Select Jackpot
Total Number of Entries			
Total Fees Collected	\$	\$	\$
Subtract Timer Fees	-	-	-
Subtract Administration or Arena Fees	-	-	-
Added Money	+	+	+
Subtract Sanctioning Fee	<b>\$10.00</b>	<b>N/A</b>	<b>N/A</b>
Subtract Finals Prize Fund (\$1/horse if MBRA Sanctioned)	-	-	-
<b>TOTAL MONEY TO PAYOUT</b>	\$	\$	\$

**STEP 2 – Determine How Many Divisions Are Needed**

If you have more than **50 entries** and / or **\$500** or more in added money, then you **have the option of** using a 4D format for your jackpot. *These rules apply to each class:* If there are 55 Open and 12 Youth, you would use 4D for Open and 3D for Youth.

**STEP 3 – Establish Payout Split For All Divisions** – only use the format that applies to the jackpot & transfer to Payout Sheets

**Please Note:** If no one places in a D, the money is split between the other divisions (in both 3 & 4D formats).

3D Format	Open Jackpot	Youth Jackpot	Select Jackpot
1D receives 50% of Payout Money			
2D receives 30% of Payout Money			
3D receives 20% of Payout Money			
4D Format	Open Jackpot	Youth Jackpot	Select Jackpot
1D receives 40% of Payout Money			
2D receives 30% of Payout Money			
3D receives 20% of Payout Money			
4D receives 10% of Payout Money			

**STEP 4 – Using your Time Sheets, determine which riders are in which D, and how many riders to pay.**

**A KNOCKED BARREL IS A NO TIME**

3D Format

1D="Fastest time of all clean runs" and all runs within 1 second of the fastest time (ie: Fast time = 15.47, 1D=15.47 – 16.46)

2D="Fastest time plus 1 second" and all runs up to next division (ie: 2D = 16.47 – 17.46)

3D="Fastest time plus 2 seconds" and all runs slower than this time (ie: 3D = 17.47 – slowest time)

4D Format

1D="Fastest time of all clean runs" and all runs within 0.5 second of the fastest time (ie: Fast time = 15.47, 1D =15.47 – 15.96)

2D="Fastest time plus 0.5 second" and all runs up to next division (ie: 2D = 15.97 – 16.46)

3D="Fastest time plus 1 second" and all runs up to next division (ie: 3D = 16.47 – 17.46)

4D="Fastest time plus 2 seconds" and all runs slower than this time (ie: 4D = 17.47 – slowest time)

Use the following chart to determine how many places to payout in each division:

# of horses in D	1	2 to 5	6 to 9	10 to 13	14 to 18	19 to 25	25 +
# of places to pay out	1	2	3	4	5	6	7
Payout split for each D (%)	100	60/40	45/37/18	40/30/20/10	35/26/19/13 /7	29/24/19/14 /9/5	29/25/16/12 /9/6/3
